Geometry Suspended Adjustable 672x1288 2x LED 3000K DE White Structure - White Structure

Geometry is a pendant luminaire that offers general lighting. Its light panel can pivot 360° around an axis, hidden by a frame that's either circular or square. The beauty of this full rotation is that you can go from direct to indirect light in one single flip. A rectangular frame holding two panels will please those who long for twinning with light. Enjoy the impossible lightness of Geometry!
