Geometry è un apparecchio illuminante sospeso che offre un'illuminazione generale. Il suo pannello luminoso può ruotare di 360° intorno a un asse, nascosto da una cornice rotonda o quadrata. Il bello di questa rotazione completa è che permette di passare dalla luce diretta a quella indiretta con un solo gesto. E, per chi vuole raddoppiare, c'è anche una cornice rettangolare che sostiene due pannelli. Goditi l'impossibile leggerezza di Geometry!
