

*LED Driver Constant Voltage 48V Surface (For Suspended Mounting) 100W Black Structure*

### Specifications

|                                     |                       |
|-------------------------------------|-----------------------|
| Materiale                           | 13456232              |
| Lampadina inclusa                   | No                    |
| Numero di fonte luminosa            | 0                     |
| Volt in ingresso                    | 230V                  |
| Classificazione elettrica           | II                    |
| Grado IP                            | 20                    |
| Test filo a caldo (°C)              | 960                   |
| Interno/Esterno                     | Interno               |
| Montaggio                           | Superficie            |
| Orientabilità                       | Not Applicable        |
| Colore primario & Finitura primaria | Nero, Strutturata     |
| Peso lordo (g)                      | 1316,0                |
| Volt in ingresso                    | 220-240V AC / 50-60Hz |
| Fattore di potenza                  | 0,95                  |
| Max. drivers on MCB 16A type B      | 10                    |
